BRIEF SUMMARY

I am a Web Developer. I enjoy problem-solving and coding. I always strive to bring 100% to the work I do. I have worked on technologies like HTML5, CSS, JavaScript, C++, C, Node.js, React.js, and MongoDB. I am passionate about developing complex applications that solve real-world problems impacting millions of users. I am looking for an opportunity to work in a challenging position combining my skills in Software Engineering, which provides professional development, engaging experiences, and personal growth.

PROJECTS

School Website

Key Skills: HTML CSS Bootstrap ReactJS Redux Javascript

Project Link: <https://school-website.netlify.app/>

A modern, responsive school website that showcases important information like programs, faculty, and contact details. It highlights the educational offerings and provides an interactive interface for users to navigate easily.

Management Website

Key Skills: ReactJS Front-End Web Development

Project Link: <https://management-todolist-app.netlify.app/>

A to-do list app designed to help users manage and organize their tasks efficiently. It provides features like task creation, editing, and deletion, with a responsive layout for a better user experience.

Blog website

Key Skills: NodeJS Express.js ejs MongoDB Javascript Back-End Web Development

Project Link: <https://blog-website-5qam.onrender.com/>

A Blog website allows users to create a blog post and store the blog post in the Mongo DB cloud database. This website uses Node JS for the backend, Passport to authenticate users, and EJS templates to display individual pages.

ACHIEVEMENTS

- Reached final round in Hack2Skills 2022 T-hack. Created educational web app aiming to teach basic math for pre nursery Children. Web app was created using html, CSS, Js and Python, MySQL as backend. My responsibility was to create the Frontend.

EXTRA CURRICULAR ACTIVITIES

- I participated in the WEBWAR competition organized by Technoutsav-22.
- I actively participate in workshops and events.
